

ABUZAR KHAN

Full Stack Developer | Software Engineer

abuzarktk123@gmail.com • +92 317 8521144 • Peshawar, Pakistan • Portfolio: [abuzar-portfolio-lat.vercel.app](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and Software Engineer with 3+ years of hands-on experience designing, developing, and deploying scalable web and desktop applications. Expert-level proficiency in JavaScript and modern frameworks including React.js, Node.js, Next.js, and Electron.js. Proven track record in building fully offline-capable desktop systems, real-time web platforms, RESTful API design, database architecture, and production deployments. Adept at delivering high-impact, business-focused solutions in agile environments with a strong eye for clean code, performance, and user experience.

TECHNICAL SKILLS

JavaScript: Expert-level – ES6+, async/await, closures, prototypes, event loop, DOM, modules

Frontend: React.js, Next.js, Vue.js, React Native (Android & iOS), TypeScript, Tailwind CSS, MUI, Redux Toolkit

Backend: Node.js, Express.js, REST APIs, GraphQL, WebSocket

Desktop Apps: Electron.js – Fully Offline & Hybrid Online/Offline Desktop Applications

Database: MongoDB, PostgreSQL, MySQL, SQLite, Stored Procedures, Database Design & Optimization

Tools & Others: Git, GitHub, VS Code, Postman, Figma, Cloudinary, API Integration

WORK EXPERIENCE

Frontend Developer – CodeBrill

May 2025 – Present

- Building scalable, responsive UI systems using React.js, Vue.js, and Tailwind CSS for enterprise-level applications.
- Contributing to an AI-powered Legal Document Management System with a focus on performance optimization and clean architecture.
- Delivering production-quality frontend development with reusable component design patterns.

Frontend Developer – Twenty Four Storage Company

Feb 2025 – May 2025

- Built web applications using React.js, JavaScript, and Tailwind CSS.
- Integrated RESTful APIs for storage management solutions.
- Conducted unit testing to ensure application performance.

Web Developer – MTBC, Rawalpindi

Oct 2024 – Feb 2025

- Developed web applications using React.js and JavaScript.
- Integrated RESTful APIs to enhance application functionality.
- Collaborated with teams to optimize user experience.

Frontend Developer (Intern) – Tech Pioneer

2023 – 2024

- Completed a 6-month professional internship with a focus on React.js development and reusable component architecture.
- Contributed to UI/UX improvements and participated in code reviews and agile sprint planning.

KEY PROJECTS

Medicore PMS | Desktop Pharmacy Management System | Electron.js + React.js + Node.js + PostgreSQL + SQLite

- Fully offline-capable desktop application for pharmacy management — works without internet, with optional online synchronization planned for Phase 2 (Hybrid Mode).

- Inventory Management: Add, update, and track medicines in real time with quick billing and stock management.
- POS Billing System: Fast point-of-sale billing module supporting both Retail and Wholesale transactions.
- Daily Reports: Automated daily reporting showing total sales, purchases, stock levels, incoming vs outgoing inventory.
- Purchase & Sales Tracking: Full ledger of what medicine was purchased, from whom, at what cost, and when it was sold.
- Reporting Dashboard: Visual summaries of revenue, stock movement, and purchase history.
- Pharmacy Subscription Management: Subscription-based licensing module for multi-pharmacy deployments.
- Phase 2 Roadmap: Cloud sync / hybrid mode, multi-branch support, and advanced analytics.

Sehatkor | Healthcare Platform | MERN Stack + WebSocket + Cloudinary | sehatkor.pk

- A complete healthcare management and appointment booking platform connecting doctors, hospitals, laboratories, and pharmacies with patients.
- Features: Real-time chat (WebSocket), appointment booking, provider profile management, secure JWT authentication.
- Scalable backend architecture built to support a growing ecosystem of medical service providers.
- Media management via Cloudinary; state managed globally using Redux Toolkit.

EDUCATION

BS Software Engineering – Islamia College University, Peshawar (2020 – 2024)
